Beef Forequarter Cuts Offer Eating Variety

Forequarter cuts of beef were always a good buy. Since the Wartime Prices and Trade Board, by recent order, reduced the price of these cuts an average of four cents a pound, they are an even better buy. Grind them and they'll cook as quickly and be as flavorful as cuts very much higher in price. This recipe from the Consumer Section of the Dominion Department of Agriculture for meat loaf or patties with a difference.

MEAT AND CARROT LOAF OR PATTIES

1½ lbs. ground beef (shoulder, neck, shank, brisket).
1½ teaspoons salt.
½ teaspoon pepper.
1 medium onion, chopped.
1 cup shredded or grated raw carrot.
1 egg.
3 tablespoons gravy or other liquid.

1½ cups soft bread crumbs.
Combine ground beef, salt and pepper; add onion and carrot. Add beaten egg and gravy or other liquid. Mix well and add bread crumbs. Pack into a greased pan and bake in a moderate oven 350 degrees F. for 1½ hours. Meature may be shaped into patties or sauteed in a heavy frying pan. Serves eight servings.

Coylo, eight servings.

Not long ago W. L. M. King announced that he was "glad to inform the House that the First Canadian Army has now taken its place in the order of battle and is participating in the operations in Norway." Soon after that a military officer broadcast from London the unforgettable scene when a Canadian general travelled by a Canadian destroyer, surrounded by officers in Canadian naval blue, on his historic journey to take over the Canadian Army.

Hon. J. L. Ralston refused to make any statement as to the composition of the Canadian Army, but bit by bit information is coming to us from the front. It has now been reported to contain a Dutch brigade, a Polish armored division, a Belgian contingent and British forces which includes the famous Seaforth Highlanders.

That, however, is the character of Samuel Paul (father), North Battleford, Sask.

Minimum values," he said.
Speaking of wartime controls the speech said that it was not the Trade Minister's philosophy of international trade that it was the duty of the Government to regulate and control export trade in peace and war.

"I believe," the speech said, "that the state should try to remove restrictions to trade and not to multiply them . . . I conceive it to be the function of the Government to use its best endeavors to supplement, rather than to replace, the efforts of Canadian exporters, and at all times to strive, not for the enrichment of any one group, but for the growing prosperity of all Canadians based upon an expanding volume of world trade."

Canada Second Nation

Mr. MacKinnon's speech said latest trade figures disclosed that Canada now was the second largest exporting nation in the world. He added: "Remarkable as it is, I do not wish to lay undue stress upon it, because it comes about partly by reason of the fact that in her war effort Britain has been forced to allow her own exports to fall to a low level."

A great question mark hung over the means that Britain would adopt to rectify her trading position and Canada had a vital stake in the solution of this complicated problem for Britain was Canada's best pre-war customer. He was confident of Britain's powers of economic recuperation and the reconstruction of Canadian trade with Britain "must be one of the foremost and cardinal objectives of Canadian commercial policy."

His speech added:

" . . . If the channels of trade are substantially closed . . ."

Joint Boards Win Favor

REGINA, Dec. 2 — (C.P.) — "Value of labor-management production committees for the post-war period now is recognized to the extent that most companies having them have stated they will continue indefinitely," said R. W. Crumb of Toronto, representative of the Industrial Co-operation Board, in an address here last night.

Mr. Crumb said Hon. C. B. Howe, Munition Minister and Hon. H. Mitchell, Labor Minister, in a joint statement have urged that all industry embrace these committees and continue them into the post-war years.
